

Hamilton Beach®

Hamilton Beach® FlexBrew® Trio Coffee Maker

Three Ways to Brew- Make coffee just the way you want it with multiple brew options in this versatile coffee maker. Brew a cup of coffee with pods or fresh grounds on the single-serve side for mornings on the go. For days that require more coffee or enough for the entire household, brew a full pot on the carafe side. Available in bold or regular strength for both single serve and carafe brewing.

Fast Brew Cycle – Enjoy a fresh cup of coffee in just 90 seconds when making a single cup. Just drop in your favorite pod brand and make up to a 10-ounce cup or use grounds to make up to 14-ounces of coffee.

Large Refillable Reservoir - The 40-ounce water reservoir on the single serve side means less time filling up with water and more time sipping on your favorite coffee.

Easy-Touch Programming - Wake up to a pot of freshly brewed coffee by entering the desired time and brew strength the night before so all you have to do the next day is pour a cup of coffee.

Easy to Clean - The 12-cup glass carafe is dishwasher safe and the pod-piercing needle on the single-serve side can be removed for cleaning to prevent clogging.
