

Hamilton Beach®

Hamilton Beach® NutriFresh™ Liquid and Food Vacuum Sealer

Preserve More- The Hamilton Beach NutriFresh™ Liquid and Food Vacuum Sealer has a unique dual stage design. Now you can preserve liquids quickly and consistently without having to freeze them first. Everything from soups and broths to chilis and even smoothies can be vacuum sealed to reduce food waste.

Hassle-Free - No longer worry about liquids causing damage while vacuum sealing wet foods. The vacuum sealer will extend the shelf life of many foods in one easy to use and versatile design.

Save Time and Money- Keep foods fresh for longer by creating custom sized vacuum sealed bags for the pantry, refrigerator or freezer. Adjustable and easy to use controls allow sealing of delicate items like herbs, fish or pastries. The integrated date coder allows you to monitor expiration by heat stamping the date right onto the bag during the vacuum seal process.

Easy to Use- Simply fill and align the bag onto the vacuum sealer and with a press of a button your food or liquids are preserved. The touchpad controls are easy to clean and clearly marked for effortless use. An accessory hose is included to provide a convenient option for preservation using food storage containers.

Built-in Storage- The 2-roll storage compartment allows you to store different sized rolls underneath the vacuum sealer, ensuring you always have the right size roll for the job.

Generous Starter Kit – Get everything you need to start sealing and preserving right away. The starter kit includes one 8" X 20' roll, one 11" X 16' roll, six Easy Fill quart size bags and an accessory hose.
