Good Thinking® Features

All the Winning Features of a BrewStation® Coffeemaker, now with a Removable Water Reservoir –

We've made brewing a full 12 cups of coffee even easier with the latest addition to our line of BrewStation® coffeemakers. A removable reservoir means no pouring and no spilling. Simply fill the reservoir to the desired level, place on the base and brew.

Dispenses One Fresh Cup at a Time – Just press your cup or travel mug on the dispensing bar and fill. There's no carafe to spill or break, and no hot plate to scorch your coffee's flavor. A gentle warming heater keeps unused coffee tasting fresh for up to four hours.

Customizable Brew Settings – Options include Bold, Regular, Small Batch and a new dedicated program for brewing Iced Coffee.
