

Hamilton Beach®

Hamilton Beach® 2-in-1 Electric Can Opener

Dual Purpose – A traditional can opener with a unique design that will detach from the base and open canned foods of almost any size from small 6-ounce cans up to eight pounds. Once removed from the charging base, use the portable and cordless feature to cut along the lid of the can until it automatically shuts off.

Take it Everywhere - The detachable feature is convenient for use anywhere in the kitchen, from the island to outdoor grilling or camping making it a great compact choice wherever you are. It is rechargeable, so batteries are not needed.

Easy to Use – This versatile can opener aligns precisely to open cans the first time with just a light touch, making it a perfect solution for anyone with dexterity challenges or delicate hands. Keep lids secured until you are ready to discard them with the magnetic lid holder.

Reduce Mess and Clutter – Reduce unsightly cords by storing the power cord neatly in the base. The removable cutting lever is dishwasher safe for a quick and easy clean-up.

Stylish Design – Chrome accents and elegant contours look great in any kitchen.
