Good Thinking® Features

Helpful for Those with Arthritis or Limited Hand Strength – Arthritis is the most common cause of disability in the United States, affecting an estimated 50 million people.* The OpenEase™ Opener automatically twists off difficult-to-open jar lids with effortless push-button operation.

Easy to Use – Just place the OpenEase™ Jar Opener on top of the jar and press the engage button. The opener clamps down on the jar and twists open the lid. Then, simply remove the jar opener and lid from the jar and press the release button to release the lid.

Compact Design – Easily fits in a drawer or cabinet for storage.

Built to Last – Durable and strong enough to open a wide variety of jar sizes. Two AA batteries included.
