

Hamilton Beach® Professional Dicing Stack and Snap™ Food Processor

Versatility: With five different options, you can now slice, dice, mix, shred, and chop to your exact specifications. An adjustable slicing blade with 14 thickness settings provides custom results from the thinnest potato slices to the thickest slices of pepperoni. The innovative dicing blade creates precise, uniform pieces for salsas, mirepoix, soups, and salads. Chop nuts or vegetables with the stainless steel S-blade, make homemade bread with the dough blade, or shred cheese with the shredding disc. There's less precutting with the 3-in-1 Big Mouth™ feed tube, one of the largest on the market. Easily feed everything from slender carrots to whole fruits, without the need for precutting.

Easy Assembly: Gone are the days of complicated positioning and twisting the bowl and lid into place. The bowl is specially designed to stack directly on the base (no twisting required) and the lid snaps securely to the bowl with a heavy-duty die-cast locking arm. No more guessing whether it's put together correctly, just "stack" and "snap" the arm into place.

Convenient Features: Two speeds plus pulse function are controlled by an electronic touchpad. A compact storage box keeps accessories organized and accessible. The 14-cup BPA-free bowl has a pour spout with a leak-free seal to prevent messes.
