

Hamilton Beach® Professional 12 cup Programmable Coffee Maker

Commercial Grade Coffee Maker - Made with premium quality and durable materials, this coffee maker was built for long lasting performance. The high brewing temperature, oversized showerhead and cone grounds basket are designed to evenly saturate coffee and provide optimal flavor extraction. This sleek and stylish coffee maker is sure to please any coffee aficionado.

Customized Brew Options - Program your coffee maker to make a full pot of coffee or as little as one to four cups. Choose classic, bold or robust brew strengths so all you have to do is wake up and pour your first cup. The adjustable keep warm setting keeps coffee at just the right temperature so you can enjoy it longer.

Convenient Features - The water reservoir holds 60-ounces and easily removes from the coffee maker for a convenient fill up for that next batch. The drip-free carafe comes with a comfortable ergonomic handle for mess-free pouring.

Accessories - A coffee scoop, charcoal water filter and starter kit of cone paper filters are all included with purchase.
